

ONFORMANT offers wireless monitoring of simulated medical supply temperatures using NIST calibrated battery powered sensors. Text and email notifications can be sent to multiple recipients at different levels based on preset thresholds when exceeded. **ONFORMANT** enhances compliance through automated collection, storage, and reporting of temperatures.

- HEALTH DEPARTMENTS
- MEDICAL CLINICS
- HOSPITALS
- MEDICAL LABS
- PHARMACIES
- SENIOR CARE HOMES
- CORRECTIONAL CENTERS
- VETERINARIANS
- ANIMAL HOSPITALS
- FARM SUPPLY STORES
- BLOOD & PLASMA CENTERS

Medical Supply Fridges and Ultra Cold Vaccine Freezers

MEDICAL SUPPLY REFRIGERATION MONITORING

MONITORING

- Tracks simulated medical supply temperatures
- Be alerted (text/email) when medical supply temperatures exceed thresholds
- Set your own temperature thresholds and alerts
- Tracks alarm history
- Data traffic stays off corporate network

NIST SENSORS

- Wireless and battery powered
- Certified, calibrated, and traceable
- Certifications are stored in dashboard for lifetime
- Replaced at no additional charge every 5 years
- Re-certifications every 5 years managed by Onformant
- Lifetime warranty of sensors

COMPLIANCE

- Automated compliance meeting CDC digital monitoring guidelines
- Temperatures logged every 20 minutes in dashboard with long term storage that is searchable and exportable
- Automated email reporting every week
- Access controls by location, department, and/or person
